

Dyslexia Unlocked

Understanding Dyslexic Thinking for Innovation Potential

Dyslexia Unlocked is an engaging workplace session presented by Chris Cole and Dorenda Britten of Unlock Innovation. Chris leads the workshop as New Zealand's leading dyslexia thought leader, with Dorenda supporting the session and bringing expertise in innovation and workplace change.

Designed for workplaces, the session provides practical insight into how dyslexia affects thinking, communication, and problem solving. The workshop builds a shared understanding that helps organisations take the first step toward making better use of dyslexic thinking in their teams.

Participants gain a clearer understanding of dyslexia as a different way of thinking, including both strengths and everyday challenges. By building awareness and understanding, Dyslexia Unlocked kickstarts important conversations about creating a more innovative and effective workplace.
